Subject: Fresh ESA list (Roadless Rule EIS)

Robert,

I spoke with some NOAA personnel concerning the Alaska ESA web mapper and was told that it is in down.

Kristin Maybry said she would get us a fresh list of marine mammals and Pacific Salmon for Tongass and adjacent marine waters. She thinks the only thing that might be different from previous lists is the Humpback whale. She will try to get that to me today or very soon. They were very helpful.

I mentioned to Kristin that, because the decision was administrative in nature and does not authorize any ground disturbing activities beyond what has already been authorized, we would be making a “no effect” call and not requesting a consultation. She said that they have had this discussion and that that call made sense.

I will get you the list as soon as I have it.

Don Martin
Fisheries Program Manager
